Ronald Jose Suez Ascanio

Senior Software Engineer @ Walmart Chile | API Integration,
Distributed systems
Santiago Metropolitan Area

Summary

As a Senior Software Engineer at Walmart Chile, my recent focus
has been leading the SEO Chile team to enhance our market
presence during a pivotal website migration. My expertise in AI,
underpinned by ongoing Master's studies at UNIR, informs my
approach to complex system integration and data-driven strategies.

Experience

Walmart Chile
3 years 8 months

Senior Software Engineer L4
March 2024 - Present (1 year 8 months)
Santiago Metropolitan Region, Chile

• Led the SEO Chile team to integrate Walmart Tech International SEO
infrastructure within Chile's lider CL market during the main website migration.
• Collaborated with cross-functional teams to ensure seamless integration and
optimization of SEO strategies.
• Implemented data-driven decision-making processes to enhance search
engine visibility and drive organic traffic growth.

Expert Full Stack Developer
March 2022 - March 2024 (2 years 1 month)
Santiago, Santiago Metropolitan Region, Chile

• Developed a tracking wrapper using GA and Google Tag Manager to analyze
user behavior data for the Data e-commerce team at Walmart Chile.

• Led a team migrating a web chatbot app, enhancing scalability and
extensibility for new chatbots.

Fraccional
Founding Software Engineer
February 2023 - March 2024 (1 year 2 months)
Chile

• Collaborated with the CTO to develop the app platform and integrate third-party services for mailing, payment flow, and legal document generation.
• Constructed the main analytics dashboard and administered the site for property management and customer support.

Mercado Libre
2 years 3 months

Semi Senior Software Engineer
August 2021 - February 2022 (7 months)
Provincia de Santiago, Santiago Metropolitan Region, Chile

• Streamlined implementation times for newcomer banks by refactoring Bank API architecture, reducing times by 60%.
• Mentored development teams from Colombia and Brazil, cutting implementation times by 30% for API integration with local banks.

Software Engineer
December 2019 - August 2021 (1 year 9 months)
Santiago Province, Chile

• Designed and implemented Java, SpringBoot architecture to integrate Banks APIs to Mercado Libre's sites.
• Added abstract models to API Core, reducing implementation times for new bank APIs from other regions.
• Contributed to building the initiative from ground zero to production in seven months.

Cencosud S.A.
Full Stack Developer
February 2019 - November 2019 (10 months)
Santiago, Chile

• Developed and maintained a library of components for a Next.js site, integrating with a GraphQL API.
• Contributed to building a back-office system for the Jumbo fulfillment process for online stores.

Mediastream SpA
Full Stack Developer
May 2017 - January 2019 (1 year 9 months)
Santiago, Chile

• Contributed to the construction of OTT sites for major media companies in LATAM.

• Reduced development times by 40% for OTT applications using React.js and React Native.
• Collaborated with core team to create an agnostic builder for web and mobile apps.
